Motorsport Tools Merfyn Hughes Memorial Rally March 19/20th 2022

Map Ref.	Approach	Depart	Control Opens	Car 1 Due	Control Closes
417.5 387	W	E	01:46	02:26	04:26

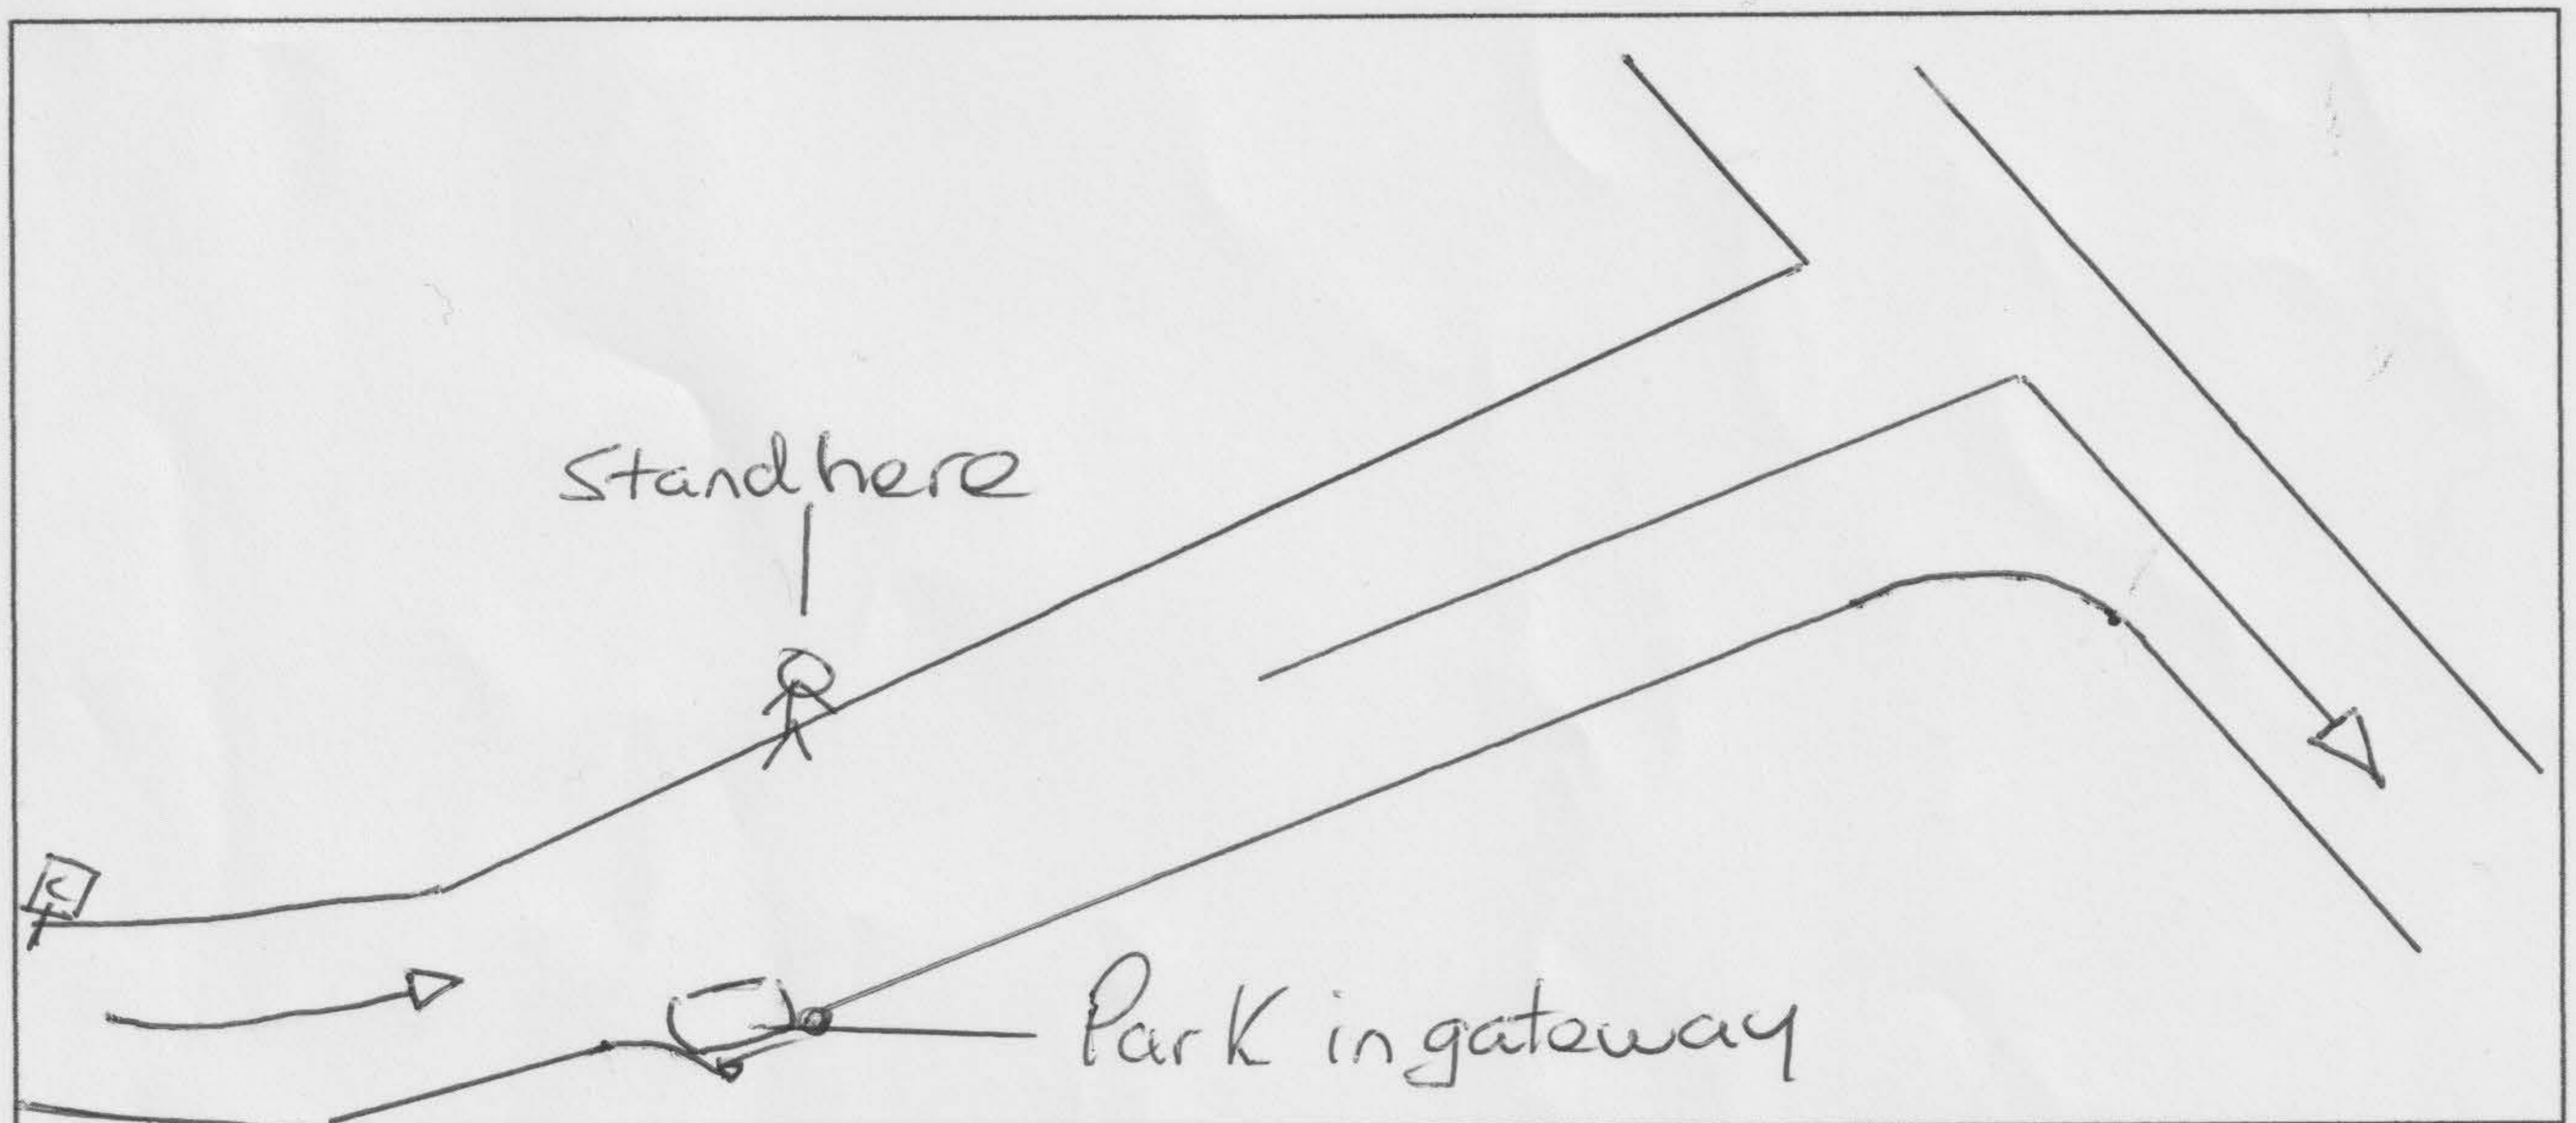

On behalf of H & D Motor Club may I first thank you for volunteering to marshal on our event. Without your support the event would not be possible. **We recommend that you turn up to your post at least 15 minutes before it's due to open**, so that you have enough time to set up and be ready for the opening car. Please ensure that you wear a High Vis Jacket/Tabard. Park your vehicle in a safe position without blocking any access roads as per instructions on diagram. Ensure the Control board is placed in a prominent position; approximately 50 meters before your position on the navigators side of the road. **Stay clear of the roadway until the competitor is at a standstill**. Please note on your check sheet any verbal abuse or attempts to gain a time advantage by any competitor – they may be penalised. We will be running a course closing vehicle as soon as possible after the last competing car has passed your control. Please do not leave your post until this car has reached you.

Additional information

.....

Control Diagram

Please ensure the control is set up as shown in the diagram below. Failure to do so may result the crew you are marshalling for being penalised.

If there are any issues, please contact:
